Peter -

To confirm our telephone conversation from earlier today, Manti City has no concern with the bond release and file closure for the State Stone quarry which adjoins Manti City property.

While Mr. McKay did place some reject stone on our property, with our permission, I'm not certain if any or all of the stone from the photo that you forwarded was placed by McKay.

As I indicated when we spoke - we have no concern about the rock McKay placed on our property as we have a use for the stone in repair and maintenance of our flood creek channel that courses through Manti.

If you have questions, please contact me.

Regards,

Kent Barton  
Administrator  
Manti City
